

OPERATING LEASE

From MAN Financial Services

Tax-efficient vehicle leasing

**Low Initial
Rental**

Monthly rentals
(from 12 to 96 months)

**Return
the vehicle**

How Operating Lease works

An Operating Lease agreement from MAN FinancialServices allows you to lease a vehicle for a specific period which is shorter than the asset's working life. As well as low-cost fixed monthly rentals, you hold no risk on the resale of the vehicle at the end of the agreed term for this off-balance sheet solution.

This option offers the lowest pre-tax rentals of any finance products offered by MAN FinancialServices. You have all the benefits of using a vehicle on the road, whilst bearing no risk of depreciation. At the end of the agreement you simply return the vehicle to us and, providing it meets the return conditions and mileage parameters agreed, there is nothing more to pay.

Key benefits

- Low initial outlay
- Obsolescence is avoided through fixed period funding
- Rentals are allowable against taxable profits
- Risks of ownership and depreciation are removed*
- Off-balance sheet option

*Standard return conditions
must be met
