

# F&R Cawley invests in MAN with MAN Financial Services.

CAWLEYS IS A THIRD-GENERATION FAMILY BUSINESS WITH OVER 65 YEARS EXPERIENCE IN THE WASTE MANAGEMENT INDUSTRY.

As one of the leading independently owned recycling companies in the UK, they provide the latest eco-technologies for clients; collecting, sorting, treating and recycling the complete spectrum of waste and industry by-products.

Constantly moving beyond the target of zero landfill, their bespoke waste management solutions provide sustainable services that seek to view waste as a resource.

Following their recent investment in a new MAN TGL vehicle, we asked Phil Gudgeon (Director of Waste Collection and Logistics) why F&R Cawley decided to bring another MAN vehicle into their fleet:

## **Why did you choose MAN?**

We have just started a relationship with MAN and this is the second vehicle we've had in the last few weeks. Cawleys are looking to use two chassis manufacturers for our vehicles and develop a strong working relationship with them, as this is key to our customer service success and keeping our vehicles on the road.

## **What was the benefit in using MAN Financial Services?**

At the time we ordered this vehicle it was more beneficial to do this on an R&M deal and they presented us with a really good offer.

## **How did you find the customer service from MAN Financial Services?**

The transaction was an easy one and the representative we dealt with was very helpful and went through all the available options.

## **What is next for F&R Cawley Limited?**

Cawleys are working hard at the moment and we're coming up with a range of new services for our customers to keep up with the constant market changes. Our Infinity Programme allows us to offer a cost effective service to our customers that addresses the issues we're facing with the current recycling market. We're the first company in the South East to recycle coffee grounds and single use coffee cups.

Cawleys are taking part in the DVSA's Earned Recognition pilot scheme which we're really proud to be on as this reinforces the fact we're truly a cut above the rest when it comes to compliance.
