

TIME IS RUNNING!
We need your consent
by 12 September 2025!

YOUR DATA. YOUR CONSENT.

The EU Data Act is coming: from **12 September 2025**, digital data will only be used with your consent.

Data is created all the time and everywhere. Our vehicles also generate and send data. We use this general data for numerous data-based products and services that support your fleet management. To continue benefiting from these offerings, we require your explicit acceptance. This is regulated by the EU Data Act.

How to agree – easy and convenient:

Already using RIO?

A dialogue box on the RIO platform will inform you about the EU Data Act. There you can view and give your consent directly and digitally. Alternatively, you will receive an email with a link to provide your consent.

Your benefits

- Control over your vehicle data
- Improved digital offerings
- More efficient maintenance and repair processes

You don't have a RIO account yet?

No worries: your salesperson will contact you – by email or phone – and guide you through the process.

Consequences of missing consent

- Restrictions on MAN service contracts
- Reduced product and service quality
- Limited access to MAN DigitalServices

If you have any questions, please contact your sales representative.
