

# Tamar Nurseries continues their journey with MAN and MAN Financial Services.

---

Tamar Nurseries Ltd is a long-established, family run nursery founded in 1979. They specialise in, and have an established reputation for growing hardy nursery stock ranging from 3lt to 75lt plants specially selected for their horticultural merits and hardiness. Tamar has grown into one of the country's leading Nurseries providing well over a million plants each year together with one of Europe's largest ranges of trees up to semi-matures.

They are a flexible company and willing to work with partners to overcome logistical challenges and offer service and advice not only to corporate clients but also to high-end residential clients. Following their recent investment in a new MAN vehicle, we asked Mary Williams (Accounts Manager) why Tamar Nurseries decided to bring another MAN vehicle into their fleet:

## **Why did you choose MAN?**

Approximately 2 years ago we decided to lease a MAN 26T lorry and have been very pleased with that decision so when it came to increasing our fleet the decision was basically already made.

## **What was the benefit in using MAN Financial Services?**

Our present lorry is on a 7 year lease which gives us the ability to plan ahead as regards cash flow and commitments.

## **How did you find the customer service from MAN Financial Services?**

Excellent, Roger Millar who dealt with the financial services was very professional, explained in detail inclusions/exclusions in the Lease and replied to all our queries.

## **What is next for Tamar Nurseries Ltd?**

Tamar will continue to build on its current reputation, there are plans to expand/relocate, we are currently working towards obtaining accreditation as Investors in the Environment and in April 2017 had the great privilege of being awarded the Royal Warrant.
