

MAN LION'S INTERCITY.

Versatility meets efficiency.

Flexibility, safety and comfort are the top priority of the MAN Lion's Intercity. At the same time, costs are kept to a minimum.

No matter which application you use the MAN Lion's Intercity for – be it as an intercity coach, school or shuttle bus – the versatile bus adapts flexibly to your requirements and ensures that passengers and drivers feel perfectly at ease. At the same time, it keeps an eye on the efficiency of your business. Thanks to its lightweight and aerodynamic design as well as the economical, easy-to-repair and maintain 9-litre engine, you benefit from low fuel consumption and high vehicle availability.

Furthermore, in combination with our individually tailored financing solutions, flexible mobility and digital services as well as professional driver trainings, the MAN Lion's Intercity offers you numerous advantages that simplify your business and make it more successful.

Your benefits at a glance.

- **Great efficiency** thanks to low-consumption, easy-to-repair and maintain D15 engine and MAN DigitalServices
- **High safety** thanks to intelligent and innovative assistance systems
- **Excellent driving comfort** thanks to optimised driver's workplace and modern passenger area

A RELAXED DRIVING EXPERIENCE.

We know that the comfort of your drivers and passengers is particularly important to you. That's why we have redesigned the driver's workplace so that it takes as much of the strain off the drivers as possible and allows them to control the numerous assistance and comfort functions easy, intuitively and safely.

In addition, all controls are arranged in such a way that they do not distract the driver's attention from the traffic. The display and operating levels are arranged separately, while the controls are easy and convenient to reach from a comfortable sitting position.

The high-quality and comfortable seats allow your passengers to enjoy a relaxed ride, while the efficient air conditioning ensures an optimal indoor climate. The flexible modular system also allows you to optimally configure the MAN Lion's Intercity depending on your application. A change platform, wheelchair lift, luggage racks, travel guide seat and numerous other features are available for this purpose.

STAY ON THE SAFE SIDE!

Thanks to its extensive standard safety equipment, the MAN Lion's Intercity is also ideally equipped for critical driving situations. In addition to the Electronic Stability Program (ESP), the Electronic Braking System (EBS) with integrated anti-lock braking system (ABS), traction control (ASR) and automatic hazard warning lights in the event of emergency braking, numerous other innovative assistance systems ensure that drivers and passengers reach their destination safely.

Adaptive Cruise Control (ACC)

The Adaptive Cruise Control* can automatically adapt both the vehicle speed and the distance from the vehicle in front within predefined settings.

MAN BrakeMatic®

The MAN BrakeMatic* makes it possible to constantly maintain a speed set by the cruise control or with the brake pedal when driving downhill by automatically controlling the continuous brakes accordingly. This reduces the strain on the driver and increases driving safety. In addition, compliance with the maximum permissible speed is guaranteed.

Emergency Brake Assist (EBA)

The Emergency Brake Assist* detects emergency braking situations and warns the driver in good time. If the driver fails to react, emergency braking is initiated and the ESS (Emergency Stopping Signal) is activated in addition to the brake lights. The hazard warning lights signal the emergency situation to other road users and thus reduce the risk of a rear-end collision.

MAN AttentionGuard

The MAN AttentionGuard* helps minimise the risk of accidents by detecting the first signs of lack of concentration and overtiredness at an early stage and warning the driver by means of a visual and acoustic signal.

Lane Guard Support (LGS)

Using the latest camera technology, Lane Guard Support* helps drivers stay in the correct lane. If your vehicle touches the lane marking or leaves the driving line without indicating, an acoustic signal sounds.

MAN Turn Assist

The radar-based Turn Assist* system with active warning defuses critical situations at intersections. This system actively warns the driver of dangerous situations and impending collisions visually as well as acoustically using a warning signal if other road users are in the vicinity of the vehicle sides.

* Within the limits of the system.

DIGITAL SOLUTIONS FOR EVEN MORE EFFICIENCY.

You want to make your MAN Lion's Intercity more efficient without too much effort? With MAN DigitalServices you can reduce consumption as well as wear and tear and encourage your drivers to drive more economically. With MAN ServiceCare you can also increase the availability of your vehicle by avoiding unplanned breakdowns and always having an eye on the maintenance status. Furthermore, with the help of our digital compass you can locate your bus in real time and intervene in route planning in the event of a traffic jam.

MAN DigitalServices* offer you numerous advantages:

- Predictive control of driving and rest times (Compliant, Timed)
- Reliable, efficient route planning (Geo)
- Economical driving (Perform)
- Proactive maintenance and repair management (MAN ServiceCare)
- Smart driver support (MAN Driver App)

Find out more at www.man.eu/marketplace.

* Try MAN DigitalServices for your entire fleet for three months free of charge if you have not yet booked any of our chargeable services. The trial period ends automatically.

YOUR BUS IN THE BEST HANDS.

From time to time, it is inevitable that your MAN Lion's Intercity will no longer be roadworthy. In such cases, you will be in good hands at one of our MAN service centres: From the diagnosis, maintenance and repair of your vehicle to the clarification of warranty and goodwill issues, we are the strong partner at your side.

Highest quality over the maximum vehicle service life and excellent uptime – that's our promise to you. Our comprehensive range of services is tailored to your needs and helps you to increase the efficiency and profitability of your business.

You can rest assured at all times: your MAN Lion's Coach is in the best hands with us.
