

MAN NOW.

Software upgrades over-the-air.

ANYTIME.
ANYWHERE.

WITH MAN NOW, SOFTWARE UPGRADES COME TO YOU. ANYTIME. ANYWHERE.

Without having to stop off at the workshop.

With MAN Now, you can adapt the functionalities of your MAN vehicles to your changed business requirements at any time. The **software upgrades** – known as features – are quickly and easily transferred to your vehicle via mobile internet thanks to pioneering **over-the-air technology**.

After the vehicles have been registered and stored on the RIO platform, MAN Now automatically checks whether your vehicle **meets the requirements** for the respective feature and shows you vehicle-specific upgrade options.

After the desired feature has been ordered via the **MAN Now portal on the RIO platform**, the upgrade is digitally transmitted to your vehicle.

Discover the features with **subscription model** or **one-time payment**, and increase the efficiency of your fleet.

For more information on MAN Now, visit the MAN Marketplace on the RIO platform at www.man.eu/mannow.

Your benefits:

- Flexible adaptation of your vehicle to new business requirements.
- Time saving in transfer and installation of software upgrades, as no workshop visit is required.
- Increased vehicle availability and efficiency.
- More transparency through automatic buildability check.
- Free initial activation of MAN OnlineTraffic.

MAN Now is available for vehicles
in the countries of the EU, plus Norway, Switzerland
and the United Kingdom.

OVER-THE-AIR FEATURES WITH **SUBSCRIPTION MODEL.**

Automatic data transfer during the subscription period.

Software upgrades with subscription model are available for your **MAN trucks from model year 2020 and MAN vans from model year 2021¹**. The best part: the ordered data is automatically transferred to your vehicle during the subscription period without driver interaction.

You can order the MAN OnlineTraffic² and MAN MapUpdate features especially for your MAN trucks from model year 2020 onwards. Because initial activation of MAN OnlineTraffic is free of charge, you can jump right into the world of MAN Now and test the feature.

You can also order the MAN EfficientRoute and MAN OnlineNews features supplied with your MAN van via MAN Now after your two-year licence has expired. Tip: MAN OnlineNews is even free of charge.

You will be informed via MAN Now in good time before the end of the respective subscription period so that you can order the relevant feature again if necessary. Otherwise, the subscription ends automatically.

¹ MAN Now is not available for the MAN eTGE. ² MAN OnlineTraffic is free of charge for two years with the 12.3" MAN Navigation Professional media system and for one year with the 7" MAN Navigation Advanced media system.

Ordering and transfer process:

-  Registration on the RIO platform via www.rio.cloud and storage of relevant vehicles with an installed and activated telematics box.
-  Access to the MAN Now portal in the RIO platform menu tree.
-  Automatic buildability capability check and display of all available features for stored vehicles.
-  Specification of the payment method for the subscription model and ordering of the relevant feature.
-  Automatic transmission of data to the vehicle during the subscription period via mobile internet (without driver interaction). Billing takes place via monthly payment during the order period.

Features for MAN trucks from model year 2020:

MAN OnlineTraffic³
Real-time traffic data

MAN MapUpdate³
Commercial vehicle-specific map material

Features for MAN vans from model year 2021:¹

MAN EfficientRoute
Up-to-date map and traffic data, as well as information for parking and fuel prices

MAN OnlineNews
The latest news and weather

³ The features are also available for the MAN eTruck.

OVER-THE-AIR FEATURES WITH **ONE-TIME PAYMENT.**

Easy installation, permanent use.

A wide range of **software upgrades with one-time payment** is available for your **MAN trucks from model year 2022**. The best part: the desired feature is installed once and is then permanently available to you in the vehicle. This allows you to quickly and easily adapt your vehicle to new business requirements while helping to preserve its value.

The ordered feature with one-time payment is automatically transferred to your vehicle. The driver receives a notification in the instrument cluster that the software upgrade is ready for installation. In a simple, guided installation process, the driver can install the feature in a few minutes and then use it over the long term.

From model year 2022

Ordering and installation process:

- 

1. Registration on the RIO platform via www.rio.cloud and storage of relevant vehicles with an installed and activated telematics box.
- 

2. Access to the MAN Now portal in the RIO platform menu tree.
- 

3. Automatic buildability check and display of all available features for stored vehicles.
- 

4. Specification of the payment method for the one-time payment and ordering of the relevant feature.
- 

5. Automatic transmission of the feature to the vehicle via mobile internet. Notification via instrument cluster that the software upgrade is ready for installation.
- 

6. Parking of the vehicle and easy installation of the feature by the driver in a guided process. After a few minutes: permanent availability of the feature.

INNOVATIVE TRANSPORT SOLUTIONS WITH **MAN DIGITALSERVICES.**

Even more cost-effectiveness for your company.

With the varied MAN DigitalServices and the easy-to-navigate MAN Marketplace on the RIO platform at www.man.eu/marketplace, you can quickly and easily get started with digital fleet management.

MAN DigitalServices support optimisation of business processes, reduction of fuel and administrative costs, planning of vehicle service work, time management and continuous coaching of drivers.

MAN DigitalServices ultimately serve only one purpose: to improve the profitability of your company. If that's not good news, we don't know what is.

The digital services available in the following areas support you in the economic and efficient management of your fleet:

- Basic equipment
- Vehicle location
- Economical driving
- Maintenance and repair management
- Tachograph and time management
- Driver assistance
- Over-the-air software upgrades
- Battery management

Our digital services are available for trucks, buses and vans. To find out whether your desired product is available for your vehicle and obtain further information on MAN DigitalServices, visit www.digital.man.

If you have any questions, please contact the MAN DigitalServices experts by telephone on 00800 63444825 (weekdays 8 a.m. to 5 p.m.) or send an email to digitalservices@man.eu.
