

dyson airwrap

Dry. Curl. Shape. Smooth and hide flyaways.

With no extreme heat.

Create your styles with Enhanced Coanda airflow. New attachments harness Coanda airflow in three unique ways. To create multiple styles, with complete control.

Key Features of Airwrap™ multi-styler – Airwrap Complete Long Diffuse

NEW 2 new attachments (Airwrap Complete Long Diffuse)

Diffuser: Helps enhance and define natural looking waves, curls, and coils.

Large round volumizing brush: For volumizing and shaping longer hair.

Faster¹ and easier¹ styling
Create clockwise and anti-clockwise curls with one barrel to reduce styling time. Rotate the cool tip to switch airflow direction as you style. Creating anticlockwise and clockwise curls with ease.

Multi-functional Coanda smoothing dryer²
With two modes: Drying, to quickly rough dry hair in preparation for styling. Smoothing, to smooth and perfect your end style. Enhanced Coanda airflow attracts and lifts longer hairs, hiding flyaways out of sight for a smooth, shiny finish.

Airwrap™ smoothing brushes
Enhanced Coanda airflow attracts and aligns hair to the surface of the brush to shape with increased control.³

Style with air not extreme heat
Enhanced Coanda airflow gives you precision styling without extreme heat damage. Air temperature is monitored over 40 times a second.

Styles and dries simultaneously
Engineered to style hair from damp. Combines powerful airflow with controlled heat, to dry your hair as it styles.

Engineered for different hair types
A range of attachments engineered for different hair types. Quick-release switch and cool-touch tips allow you to quickly change attachments after styling.

Cool shot
To set your style.
