Put the card(s) in and power on

- 1 Insert the SIM tool into the hole next to the tray to pop out the tray.

Make sure that you use the correct size of SIM card and don't cut the SIM card.

- 2 Insert the SIM card(s) with the gold contacts down, then gently push the tray into the slot.

Add a microSD card (optional, sold separately) for additional storage.

Connect with 5G: 5G service plan and 5G network coverage required; available only in selected areas; device not compatible with all 5G networks. Contact your service provider for details.

- 3 Press and hold the power button to turn on your phone, then follow the prompts to get started.

Note: Press the power and volume up buttons at the same time to turn off your phone.

Help and more

Get answers, updates and info:

- **Help is here:** from the Home screen, swipe up and tap **Settings > Help** to learn how to use your phone and get support.
- **Get more:** get software, user guides and more at www.motorola.com/mymotog.
- **Get apps:** tap **Play Store** to browse and download apps.

Legal information. This guide provides important legal, safety and regulatory information that you should read before using your product. For the complete legal information, from the Home screen swipe up and tap **Settings > Q**, then type **Legal information**, or visit www.motorola.com/device-legal.

Water repellent. Your phone is not waterproof. For more about your phone's water-repellent design and care, swipe up and tap **Settings > Help. Charging and battery safety.** To prevent possible burning and injury, the battery in your phone should only be removed by a Motorola-approved service centre or similar skilled personnel. If your phone becomes unresponsive, press and hold the power button until the screen goes dark and your phone restarts.

The device is PD (Power Delivery) capable. For the fastest charging speeds, charge your phone using a Motorola 68W or higher USB-C PD charger (may be sold separately) and the Motorola PD cable included in the box. Use of other chargers is not recommended and may impair the charging performance. The power delivered by the charger must be between the min 5 Watts required by the radio equipment and the max 68 Watts to achieve the fastest charging speed. Chargers that do not comply with applicable national standards may be unsafe, with risk of death or injury, and may cause slow charging or product damage. Don't charge your phone in temperatures below -20°C or above 45°C. To view applicable standards and to learn more, see the "Legal information" section of this guide or visit www.motorola.com/device-legal.

Warning about high volume usage. To prevent possible hearing damage, do not listen at high volume levels for long periods. When your headset volume reaches the high volume threshold, a warning will be shown. Tap **OK** to dismiss it, or wait one to five seconds, then press the volume up button to dismiss the alert and enable the volume to continue to be adjusted.

Disposal and recycling. For help recycling products and packaging responsibly, visit www.motorola.com/recycling.

Extreme heat or cold. Don't use your phone in temperatures below -20°C or above 45°C. Don't store/transport your phone in temperatures below -20°C or above 60°C.

Legal disclaimers. Features, services and applications are network dependent and may not be available in all areas; additional terms/charges may apply. Product specifications and other information contained in this guide are believed to be accurate at the time of printing. Motorola reserves the right to correct or change any information without notice.

Arbitration. Your purchase is governed by a binding arbitration clause. For more information and how to opt out, see the legal guide that came with your phone.
