

Dyson Supersonic r™ Curly+Coily — Jasper Plum

TECHNICAL SPECIFICATION SHEET

Our most powerful¹, yet lightest² hair dryer. The precision hair dryer – features latest technology within a re-engineered, lightweight format that streamlines and evenly heats powerful airflow.

Our most powerful¹ and fastest drying – the Dyson Hyperdymium™ motor produces high-pressure airflow. Spinning at up to 110,000rpm, forming a jet of controlled air. Propelled through the ultra-responsive Streamlined flow heater, 10 heater foils are placed in the curve of the device for air to travel through.

Engineered to focus heat and airflow evenly where you need it for fast drying, precise styling, and a salon finish.

30% smaller¹ and 20% lighter², and at 325g body-weight, this device has been engineered to dry and style with ease and control where it's hard to reach.

Five Intelligent attachments are preset to the right temperature and airflow, to perfect your style. RFID chips within the attachments remember the last used setting.

Reduces static to reduce frizz by up to 46%³ and control flyaways using negatively charged ions.

Machine dimensions	Height: 285 mm, Length/Depth: 108 mm, Width: 55 mm
Weight	0.785 kg
Cable length	2.7 m
Airflow	12.4 l/s
Voltage	230 V
Wattage	1,700 W
Sound level	80.1 dBA
Motor	Dyson Hyperdymium™ motor, up to 110,000 rpm
Heat settings	4 heat settings, including Cold shot
Airflow settings	3
Guarantee	2 years
