Energy Management Policy

We, at Bridgestone India Private Limited, will promote efficient use of energy to produce and deliver high-Quality Steel Belted Radial Tires to our customers. We are committed to the responsible use of electricity and energy, thus reducing consumption wherever it is cost-effective and practical to do so.

Bridgestone India Private Limited EnMS Manual provides a framework for setting and reviewing our energy objectives, targets, and performance indicators.

To implement this policy, we will:

- Ensure all necessary information and resources are available to work towards achieving specific energy objectives and targets.
- Achieve and maintain compliance with applicable legal and other requirements concerning energy use, consumption, and efficiency.
- Consider energy-efficient products & services that impact energy performance as part of our procurement process.
- Support designs that consider energy performance improvement.

We will assure this policy will be shared with all the employees and contractors, counting on their contribution for effective implementation.

The Energy Policy shall be made available to the public and all interested parties upon request.

Date: 1st January 2023.
