

Product Code: 310472

Product Description: Euphoria System 180 with thermostat for wall mounting

Product Specification

Material:Brass/Chrome

Fittings:

engineering and made by GROHE!

The GROHE Euphoria 180 shower system with thermostat adds instant designer style and premium performance to any bathroom. The system is also packed with GROHE's cutting edge technology. Set your desired temperature with GROHE TurboStat and the water will stay just how you like it even if the supply fluctuates. GROHE EcoJoy cuts water usage but also guarantees complete showering satisfaction. The easy-to-use GROHE SafeStop feature limits the water temperature to a maximum of 38°C – great for giving children independence in the bathroom – but can be raised for adults. GROHE DreamSpray ensures the flow of water from every nozzle is even – perfect for the Euphoria Cosmopolitan 180mm head shower's soothing Rain Spray. The arm of the head shower even swivels through 180° for added flexibility. The Euphoria 110mm Massage hand shower has three sprays to suit your mood: a soothing Rain Spray, the eco-friendly SmartRain Spray with reduced water usage and the revitalizing Massage Spray. The GROHE AquaDimmer lets you effortlessly control the volume of water while also directing the flow of water between the head and hand shower. The handy silicone SpeedClean nozzles mean it is easy to keep free of dirt and limescale! The multilayered coating of scratch resistant GROHE StarLight chrome has a sparkle that lasts for years and the Inner WaterGuide prevents the surface of the shower from getting hot

Additional Information

Do not clean with abrasive cleaning products

Always inspect before installation
