# 1 What is the Knauf Supplier Portal?

In close connection with our mission to be the digital leader in the construction materials industry, Knauf is actively driving forward the digitalization of its procurement processes.

We are following this mission with the implementation of our **new Knauf Supplier Portal** via the software provider JAGGAER. The Knauf Supplier Portal is the way goods and services will be purchased in the future.

## 2 Background & targets of the Knauf Supplier Portal

### *What?*

Knauf is **digitalizing** its **procurement processes** and you as our business partner will play an important role in our digitalization journey. The new Knauf Supplier Portal enables us to **unify all our procurement processes** on one single platform.

### *Why?*

The new Knauf Supplier Portal will help us to make our **procurement processes** and the **communication** to our suppliers **simpler, more direct and faster**.

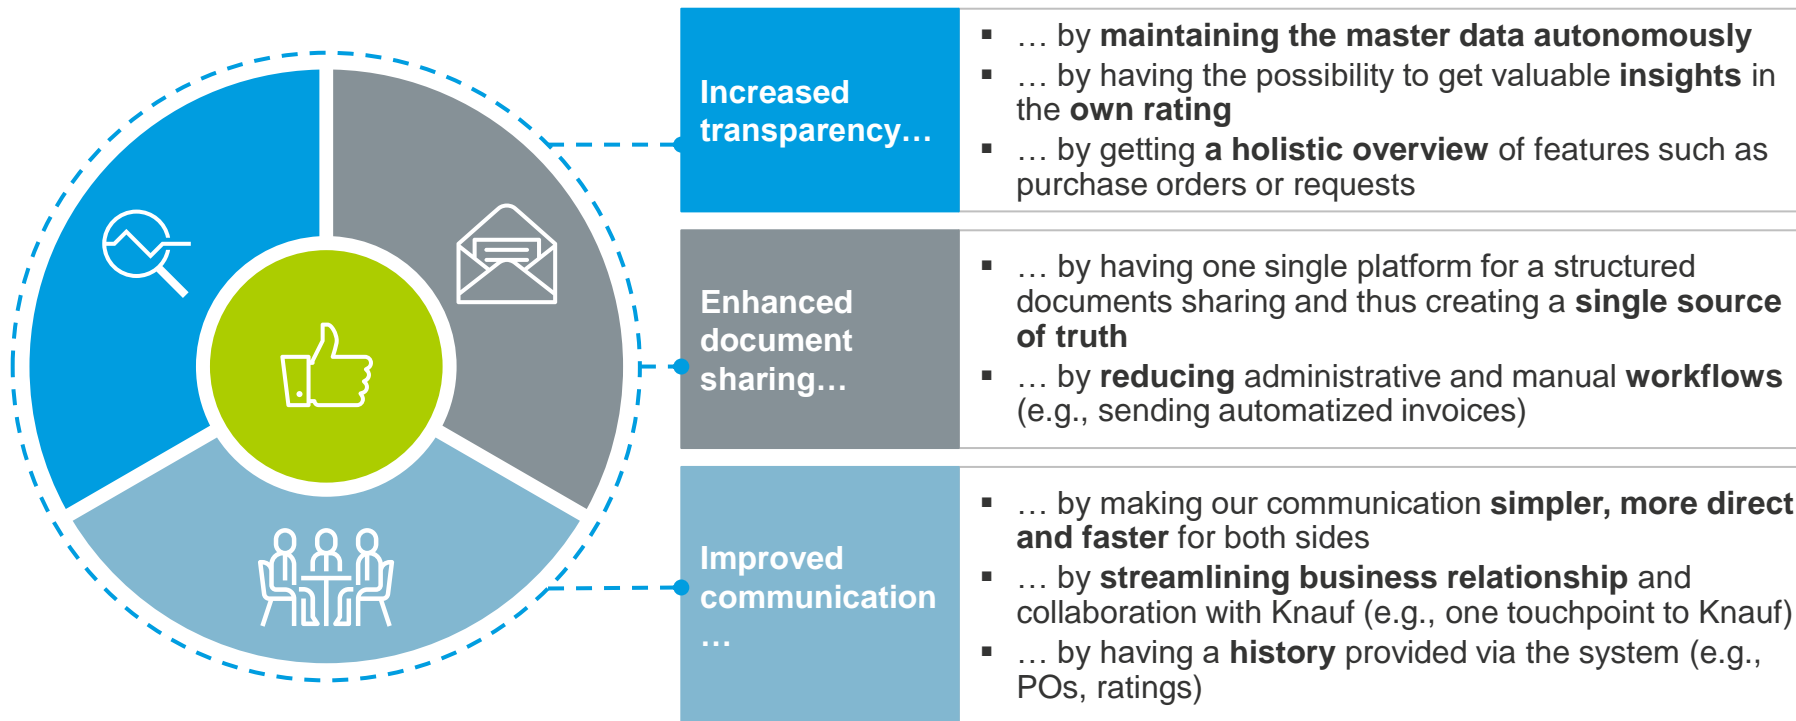

Suppliers will benefit from **increased transparency, enhanced document sharing** and **real time communication**.

### *How?*

Suppliers will receive an **email invitation** via the new system JAGGAER, containing a **link to register** for our new Knauf Supplier Portal. The **registration process** consists of **two consecutive steps**.

# 3 Benefits for our suppliers
