

**MANN
FILTER**

Ready for big business.

MANN-FILTER for agricultural machines.

**MANN
FILTER**

***Protect
your
machine!***

MANN-FILTER – Perfect parts. Perfect service.

You reap what you sow.

Rely on yellow and green when selecting filters.

Filters for agricultural machinery are subjected to the highest loads in operation – particularly during the harvesting season. The challenges here are the large amounts of dust and organic particles, as well as the enormous mechanical loads. MANN-FILTER products are synonymous with optimal protection for your machine, long running times and 100 % original equipment quality.

Performance that pays

Leading manufacturers of agricultural machinery have always trusted MANN-FILTER. And our many decades of experience in the development and manufacturing of efficient, filtration solutions. You too can rely on high-performance MANN-FILTER products to provide long-term protection for your machine and therefore your investments.

With MANN-FILTER, you are always perfectly equipped

As the leading filter brand, we offer the highest quality – in original equipment and in the independent aftermarket. Avoid downtime and choose original MANN-FILTER products in 100 % original equipment quality.

Always the right filter

Whether you are looking for air, oil, fuel, cabin air, or hydraulic filters, our comprehensive MANN-FILTER product range, featuring renowned manufacturers and common models, will help you find the right filter.

Access our online catalogue at www.mann-filter.com.au to find out the right filter for your machinery.

MANN-FILTER – benefits that pay for you

- ⊕ 100 % original equipment quality
- ⊕ Safety and reliability, even under the heaviest loads
- ⊕ Comprehensive service
- ⊕ The highest original equipment expertise worldwide for over 70 years

**Everything
at a glance!**

MANN-FILTER – always the right choice.

**Original
equipment
quality you
can trust!**

The service life and efficiency of agricultural machines largely depend on the right filter selection. High quality filters are indispensable for the functional reliability of your machines. Don't compromise and opt for MANN-FILTER products in 100% original equipment quality.

All MANN-FILTER products are manufactured according to the latest international production and test standards for the automotive and machine industry. They stand for best component quality, have shown to excel due to consistently high and reliable filtration performance and secure a long service life.

Air filters

Reliable performance even in dusty working environments: MANN-FILTER air filters impress with their excellent filtration performance. They separate harmful dirt particles and water droplets from the intake air, thus reducing engine wear and extending its service life. Where technically possible, we use environmentally friendly, metal-free elements in our filters.

Oil filters

The exceptionally high particle separation and dirt holding capacity of MANN-FILTER oil filters ensure the best possible protection and enable long service intervals – even under the toughest operating conditions.

Fuel filters

MANN-FILTER fuel filters protect modern diesel injection systems against dirt particles and water droplets in the fuel. They reliably ensure that the engine is supplied with clean fuel – and thus contribute to extending its service life.

Hydraulic filters

In environments with high operating pressures, our filters protect the hydraulic system of your machines against dirt particles, corrosion and abrasion. The high dirt holding capacity of the medium ensures a long filter service life and even removes the finest harmful particles.

Applications

Multichannel access to our products.

The MANN-FILTER website

Enter the yellow and green world of MANN-FILTER for perfect service. Here you'll find the MANN-FILTER dealer locator with Google route planner. You'll also find useful product information and everything you need to know about MANN-FILTER Motorsport. Stay up-to-date with the MANN-FILTER newsletter and latest press releases.

The MANN-FILTER online catalogue

Keep track of the different filter elements that are used all over the world. With the MANN-FILTER online catalogue, you will quickly and easily find the right product. A 360-degree view is available for almost all of our filters. And best of all: With our handy pocket-sized version of our online catalogue for your smartphone, you can find the latest information wherever and whenever you need it.

convenience!

The MANN-FILTER catalogue

A variety of new filter types for the latest passenger cars, trucks, and off-highway models complement the widest range of filters in original equipment quality. The catalogues offer an extensive range of vehicle and machine filter elements for the European spare parts market. The catalogues set is divided into four up-to-date yellow and green individual catalogues for different application areas and the "Comparison list" available in PDF format contains extensive conversion lists. For the first time, all catalogues are also available as interactive electronic PDF files for browsing with many quick access functions.
