

Product Information

MOTO XP 10W50

Description

MOTO XP 10W50 is a superior performance product designed to unlock the true potential of four-stroke motorcycle engine. Crafted with advanced synthetic base oils and premium additives, this high-performance oil ensures manual transmission engine runs smoothly and reliably, even under extreme conditions.

Applications

- Suitable for air and water-cooled 4-stroke engines exposed to normal to extreme operating conditions.
- High performance bikes, sports bikes, street & road bikes, trails, off road bikes, enduro, trial fitted with 4 stroke engines, integrated gearbox or not, wet or dry clutch.

Meets Performance

JASO MA2:2023
API SP

Features & Benefits

- Engine Protection: Maintains exceptional engine cleanliness and prevents sludge build-up.
- Wear Reduction: Minimizes wear and tear to extend engine life.
- Oxidation Stability: Offers robust resistance to oxidation, ensuring lasting performance.
- Friction Control: Enhances friction control for seamless gear shifting and a smoother ride.
- Soot Handling: Effectively manages soot to keep your engine running efficiently.
- Fuel Economy and Emission Reduction: Enhances fuel efficiency and lowers emissions.
- Improved Cold Start Performance: Ensures easy oil flow at low temperatures.

Typical Properties

Properties	Test Method	Typical value
Appearance	Visual	Red Clear Liquid
Density @15 oC	ASTM D4052	0.8532
Kinematic Viscosity @40 oC	ASTM D445	115.2
Kinematic Viscosity @100 oC	ASTM D445	17.18
Viscosity Index	ASTM D2270	164
Flash Point, COC	ASTM D92	248
Pour Point	ASTM D5950	-33
Total Base Number	ASTM D2896	7.1
Cold Cranking Simulator@-25 oC	ASTM D5293	5,501
