Composition

Colour

Scotia

MDF with multifunctional surface

White ≈ RAL 9003

Order code**Dimensions****QSSCOTPAINT**

2400 x 17 x 17 mm

Applicable for:

All Quick-Step Laminate, Vinyl and Parquet floors.

The floor must be able to expand and contract on all sides. This is why an expansion gap must be provided on all sides of the floor, around pipes, thresholds and under door frames. The exact expansion gap size depends on the floor type. Consult the installation instructions of your Quick-Step floor to know the required size of the expansion gap. To finish off this gap, we offer a wide range of skirting and profiles.

Features

Quick-Step accessories are specifically developed for Quick-Step floors.

✓ **Multi-purpose surface**

The surface can be left white or painted.

✓ **Same shape as colour matched scotia**

Choose or combine between a colour-matched scotia or the white and paintable scotia: they have the exact same shape!

✓ **Easy installation**

Simply secure the scotia to the wall.

Installation

The scotia can be installed in the following way:

1. If you choose to paint the scotia, it is best to sand and prime the scotia to ensure the best adhesion. Always verify if the paint bonds well. Preferably, use a water-based lacquer paint.
2. Secure the scotia to the wall.
3. You can paint the scotia in the colour of your choice or you can leave it as a white scotia.
