

DPB3631S Cooker Hood

Discreet built-in design

Hidden in the units built over the hob, this discreet hood is only visible when in use. It can be smoothly pulled out to activate the extractor while cooking, and pushed back into place when idle.

Hood settings. On demand

Innovative electronic controls make regulating the cooker hood functions more convenient. From modifying the fan speed to adjusting the light settings, take complete control of the cooking process.

Capably capturing kitchen fumes

Reliably capturing cooking odours and fats, this long-lasting filter can be simply replaced when necessary.
