Finition (Montant D' Coin)

Tools required

Note / *Op* / Noter

Caution: Some pieces of hardware could be hazardous to small children. Keep all these items out of reach and do not leave children unattended in the assembly area.

Please read these instructions carefully before proceeding. Some of these units are quite large and may have to be assembled in the room where they are to be installed.

Note: Due to the variation in wall conditions, no screws are supplied for fixing the unit to the wall. If in doubt consult an expert. Assemble the unit on a clean solid work surface.

Please Note: Every effort has been made to ensure that this product leaves the factory in perfect condition. Any item which has a visible defect must not be installed and returned to the place of purchase.

In the interest of continuing improvements, we reserve the right to amend or adjust the specifications without prior notice. Errors and omissions excepted.

Waarschuwing: *Bepaalde montage-elementen kunnen gevaar opleveren als ze in handen van kleine kinderen raken. Houd deze voorwerpen buiten het bereik van kinderen. Zorg dat kinderen zich niet zonder begeleiding in de ruimte kunnen bevinden waar het montagewerk plaatsvindt. Alvorens aan de slag te gaan, adviseren wij u deze instructies nauwkeurig door te lezen. De kasten zijn vrij groot. Daarom kan het raadzaam zijn, ze te monteren in de ruimte waar ze uiteindelijk komen te staan.*

N.B.: *Omdat muren in verschillende huizen van verschillend materiaal kunnen zijn, zijn er geen schroeven voor wandmontage bijgeleverd. In geval van twijfel raden wij u aan een deskundige te raadplegen. Zet de kast op en schone, solide ondergrond in elkaar.*

Let Op: *Er is alle mogelijke moeite gedaan om ervoor te zorgen dat dit product u in perfecte staat bereikt. Elk product waaraan duidelijk schade te zien is, mag niet geïnstalleerd worden en dient te worden geretourneerd aan het bedrijf waar u het gekocht heeft en waar het product vergoed zal worden.*

In het belang van voortdurende verbetering, behouden wij ons het recht voor om specificaties te veranderen of aan te passen zonder voorafgaande mededeling. Fouten en weglatingen uitgezonderd.

Attention: Certains éléments d'équipement peuvent éventuellement être dangereux pour les petits enfants. Veuillez ne pas mettre ces éléments à leur portée et ne jamais laisser d'enfants sans surveillance dans la zone d'assemblage.

Veuillez lire ce mode d'assemblage attentivement avant de continuer.

Certaines de ces armoires sont assez grandes et peuvent exiger d'être assemblées dans la pièce dans laquelle elles seront installées.

Remarque: En raison des différentes conditions des murs, aucune vis n'est fournie pour la fixation des éléments au mur. En cas de doute, consultez un expert. Assemblez l'élément sur un plan de travail solide et propre.

Veuillez Noter: Tout a été fait pour assurer que ce produit quitte l'usine en parfait état. Tout article visiblement défectueux ne doit pas être installé et doit être retourné au point de vente où il vous sera remboursé.

Dans le cadre de notre politique d'amélioration continue, nous nous réservons le droit de modifier ou d'ajuster les spécifications sans préavis. Sauf erreur et omission.

1

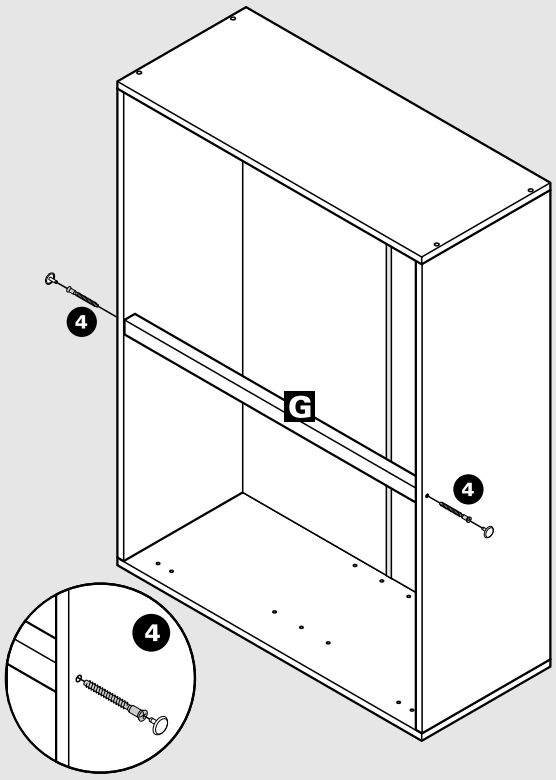

1 — 50mm Confirmat x4

2-3

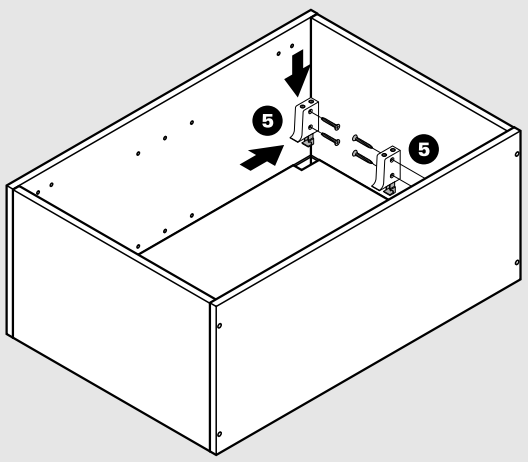

3 — 50mm Confirmat x4

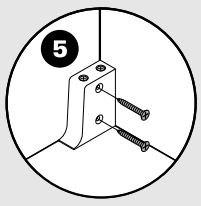

4 1000mm Unit ONLY

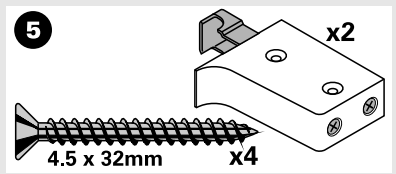

4 — x2 — 50mm Confirmat x2

5

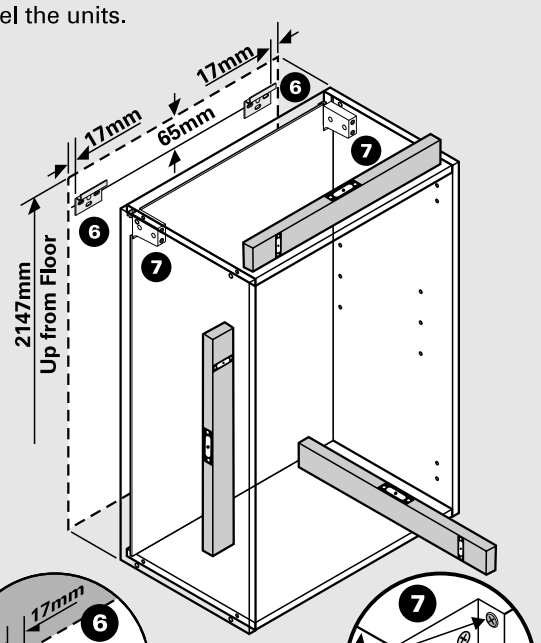

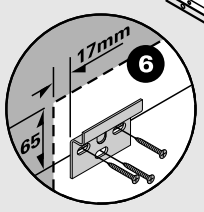

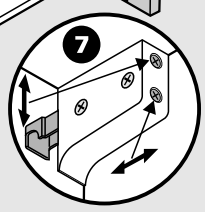

6-7

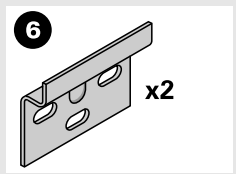

Fix the wall hanging brackets securely to the wall with suitable fixings (not supplied).

Level the units.

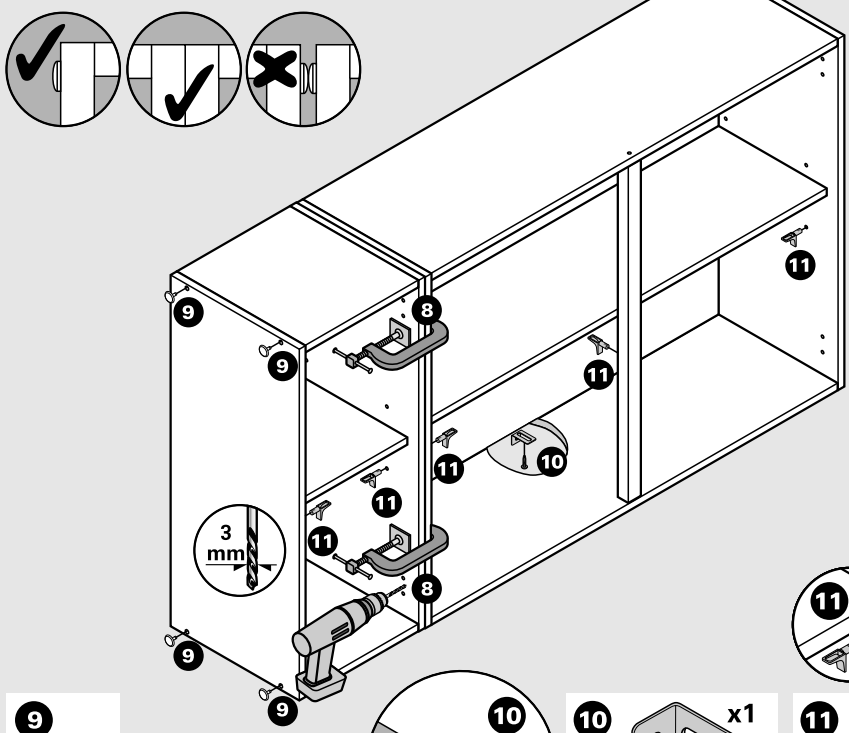

8-10

Fix the units together with suitable fixings (not supplied).

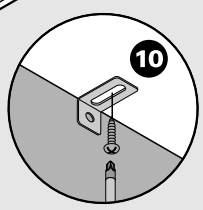

Do not use cover caps between the units.

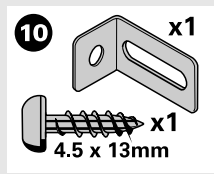

1000mm Wide Unit ONLY- Fit a bracket to the underside of the unit and attach to the wall with suitable fixings (not supplied).

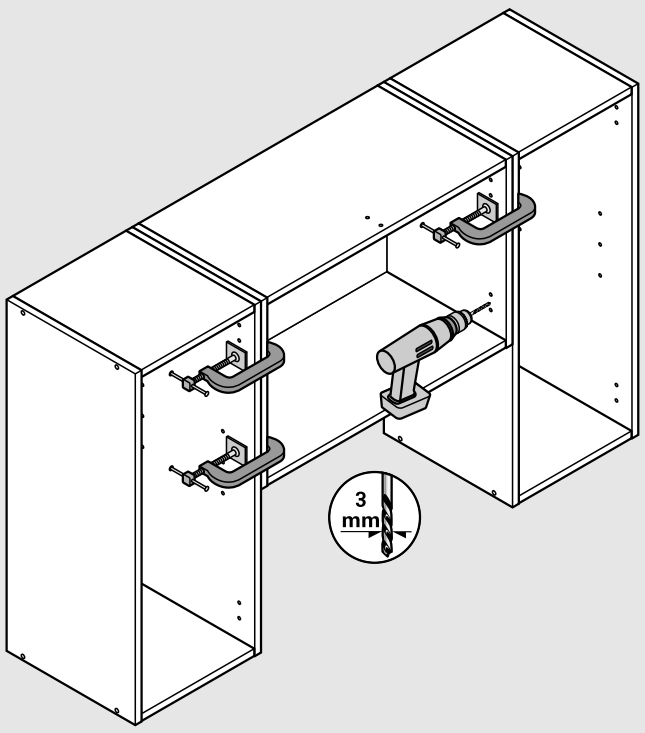

11 Cooker Hood

Fix the units together with suitable fixings (not supplied).

Do not use cover caps between the units.

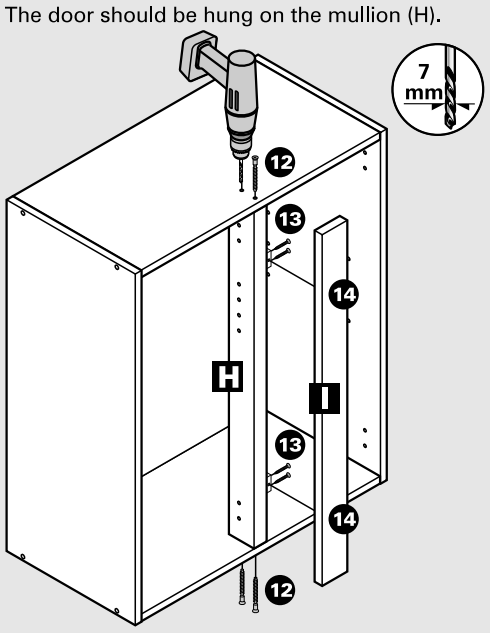

12-16 Corner Wall Conversion / *Ombouwen Muurkast* / Conversion D'angle Mural

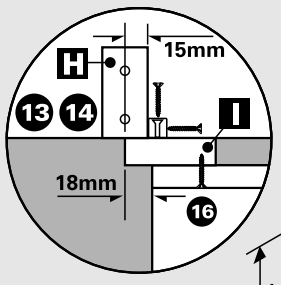

Drill through the part drilled holes and fit the mullion (H).

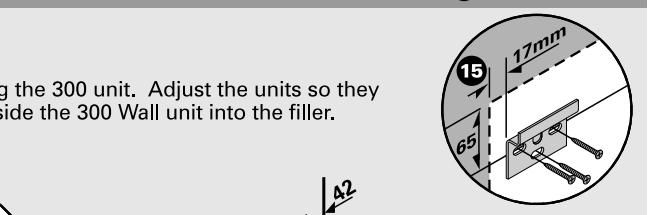

Fit the half blocks to the mullion first. Fit the filler (I).

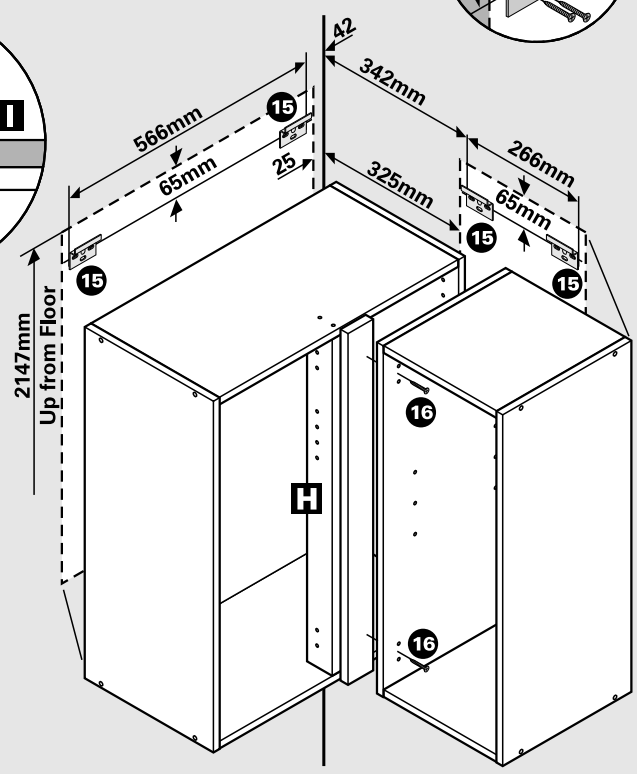

Position the 600mm wide unit 25mm out from the corner of the room. Hang the 300 unit. Adjust the units so they are correctly positioned (as shown in the diagram). Screw through from inside the 300 Wall unit into the filler.

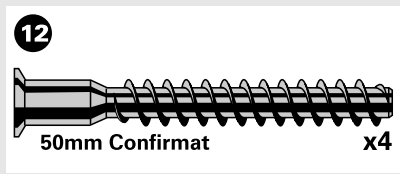

The door should be hung on the mullion (H).

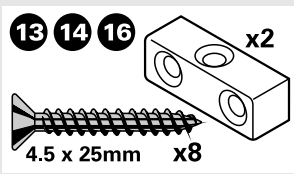

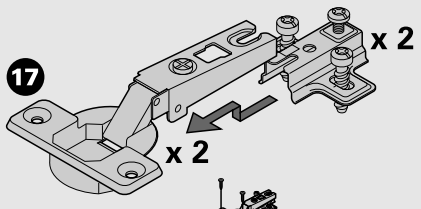

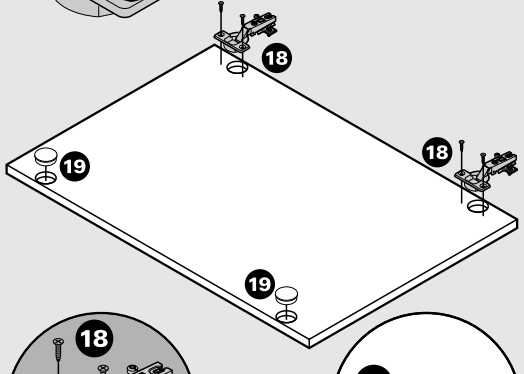

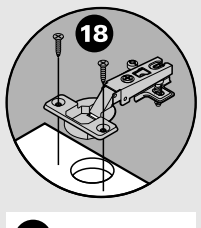

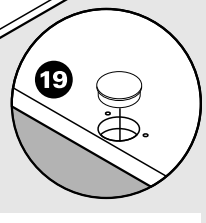

17-19

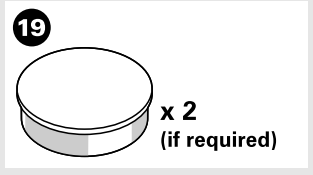

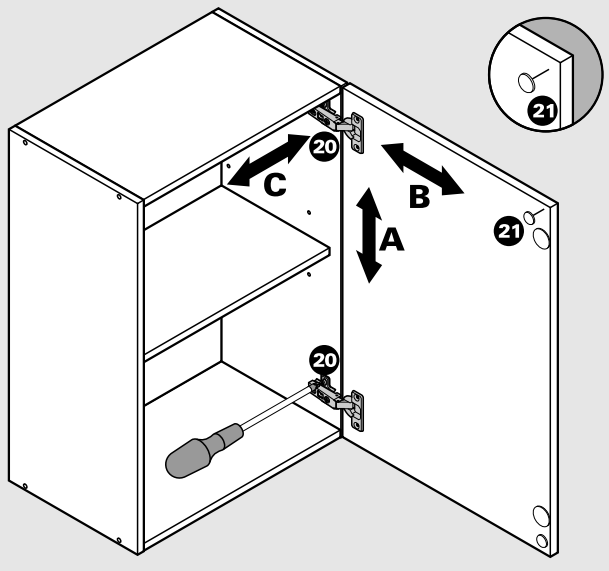

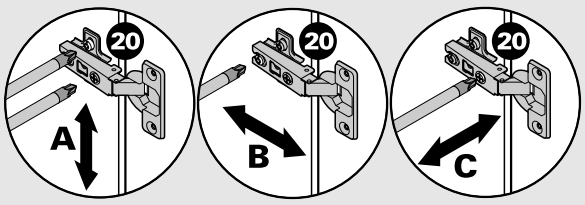

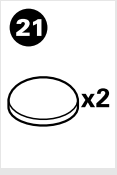

20-21

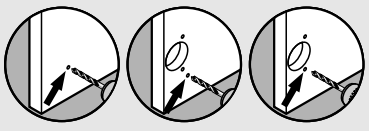

22

Door Handle Drilling- All doors are part drilled on the back for a handle. Because some doors are reversible, they are part drilled in several places. Please decide the handle position on all units and check all details carefully before drilling as drilled doors cannot be returned. Use a 5mm flat-tipped drill bit and drill into a piece of scrap wood to prevent splintering.

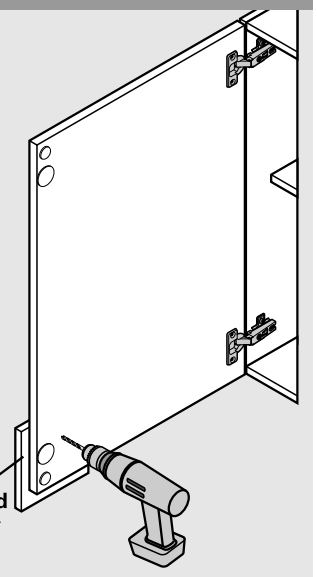

It is recommended that the doors are fitted before drilling.

5mm Flat-tipped Drill Bit
5mm Houtboor
Mèche de 5mm

Scrap Wood
Stukje Hout
Bois

These units have been designed to give years of pleasure and satisfaction. You will help maintain the original beauty of your kitchen by following these guide lines.

Sealing: All cut edges where raw chipboard is exposed on both the worktop and the carcase must be sealed with a moisture resistant sealer such as gloss paint, varnish or silicone sealant.

Cleaning: Any spillage, even water, should be removed from the surface immediately. Remove any marks with a soft damp cloth and mild household detergent. Wipe over with a damp cloth to remove any excess moisture and dry with a soft, clean cloth. Do not use solvents, abrasive cleaners or pigmented glass cleaners.

Drawers, Runners, Doors And Hinge: The roller runners and hinges are factory lubricated. Do not clean with solvents as the operation of the moving parts will be affected. Never pull or lean on partially or fully open doors and drawers.
