AEG

Wine Cellar

KWK884520M

Stylish, flexible storage for your wines
This compact wine cellar offers the ultimate in style and flexibility. It comes with a temperature range from 5 to 20 degrees, and it perfectly matches your other kitchen appliances from the AEG Compact Range.

Product Benefits & Features

Keep your wine at the correct temperature
With this wine cellar, you can rest assured that your bottles are stored at the exact temperature required. The direct temperature control allows you to set the temperature from 5 to 20 degrees.

Store up to 18 bottles, even when space is limited
Store up to 18 bottles in this compact wine cellar. The design means there's always something to serve, even when the space in your kitchen is limited.

Flexible storage for a range of bottles
Whether champagne or prosecco, this Wine Cooler can hold bottles that differ in size and shape. Its flexible design features more space between shelves, enabling wine to be stored in a range of positions, with no need to readjust the setup. Keeping any one collection chilled and varied.

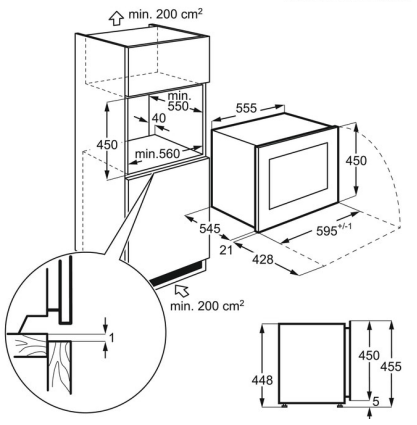

A seamless fit
in the kitchen
This Wine Cooler has a sleek, seamless finish. Designed without any handles, it opens with a light push instead. It also aligns with other AEG appliances, maintaining a flawless look in the kitchen.
